Online Students

Brisbane Professional College assists students in achieving positive course outcomes by providing support and reasonable adjustment as required.

If a student is experiencing personal difficulties, students are encouraged to contact the College to seek discreet, personalised and confidential assistance according to the nature of the difficulties. In the event that a Student's need exceeds the capacity of the support services Brisbane Professional College can offer, the Student will be referred to an appropriate external agency.

Tutorials

Each Wednesday, a two hour webinar is hosted by the course trainer using Zoom software who will present the course content and answer and queries from the students.

The course Trainer is available Monday to Friday by email and Friday afternoons between 1pm and 5pm for one on one student queries by phone or a scheduled zoom session.
